The courthouse construction was on schedule. However, due to the weather, the concrete for the roof will be poured on July 18th instead of today.

Administrative Update, Sheriff James Hudson - Update

Sheriff Hudson stated that he was asked to provide a report at each Council meeting on what the Sheriff's Department has done. For the month of June, Sheriff Hudson reported the numbers for the following: calls for service, reports written, arrests, arrest warrants served, uniformed traffic tickets, transports, funerals, assistance to other agencies, domestics, burglaries, car break-ins, stolen vehicles, larcenies, robberies, assaults, aggravated assaults, weapons/firearm calls, malicious damage to property, suspicious person calls, trespassing calls, animal calls, fire calls, harassment, stocking calls, alarm calls, missing persons/run away calls, custodial/custody issue calls, fraud calls, shoplifting calls, mental disorder patients, assistance to motorists, assistance to EMS, civil papers served, narcotic search warrants, narcotics arrest warrants/citations, general public service calls, abandon property calls, drug search warrants, traffic stops, suspended citations, criminal possession of methamphetamine, possession with intent to distribute marijuana, and security for schools this summer. There were no homicides during the month of June.

Ms. Thomas commended the Sheriff's report and asked about the status of the court system.

Mr. Douglas commended the Sheriff for having roadblocks.

Attorney Theodore DuBose and Attorney Ben Zeigler, Haynsworth Sinkler, Boyd, - Hartsville Fire Protection District Agreement/Contract

In reference to the Hartsville Fire Protection District Agreement, Mr. Stewart reported that the staff thought it would be very simple to renew the contract, however, the attorneys discovered several housekeeping items that need to be taken care of.

Attorney Ben Zeigler mentioned that Attorney Theo Dubose represented the county in the case of *The City of Darlington versus Kilgo* which gave rise to the Hartsville Fire Protection District Agreement. Therefore, Mr. DuBose was seasoned in the issue of fire service and Darlington County regarding Hartsville area. In working with Mr. DuBose and the county, they discovered a curve ball last week and want to make recommendations on how to do some housekeeping regarding the Hartsville Fire Protection District. The district was created in 1997 under Chapter 19, Title 4, of South Carolina Code of Laws, which allows the county to set up special taxing districts for fire service. Hartsville was specifically created to settle a dispute that had arisen between the City of Hartsville and Darlington County in terms of servicing that area – who was entitled to service that area. It was resolved with the county creating a fire district. At the same time the district was created, the contract with the City of Hartsville was for the city to provide the services to be paid for by the county. The agreement was approved in 1997, renewed in 2003, and has not been renewed or updated since that time. The 2003 agreement expired in 2008, but the parties continued to operate under it. The time is now to update the agreement between the City of Hartsville and Darlington County.

Mr. Zeigler reported that during the past few months, Mr. Stewart had been negotiating with the City of Hartsville over the terms of the new agreement for fire service and kept him in the loop. When they reviewed the latest version of the agreement, it caused them to go back to look at some of the old documents from the late 1990s, specifically the ordinance creating the Hartsville Fire Protection District. In doing so, they discovered things that had changed over time and needed to be addressed in the ordinance. For example, the issue of the county issuing bonds to pay for firefighting equipment in the district. When the district was created in 1997, it did not give County Council the authority to issue bonds for improvements in the district. This was very unusual. Mr. Zeigler said he had never seen a fire district created that did not have the authority of the County Council to issue bonds. Therefore, the agreement needed to be amended to add this power. Also, over the years, there had been a number of changes to the area where parcels had been added and removed which had never been memorialized through the proper procedure under the statute. After looking at the old documents, they recommend that the county reconstitute the district instead of abolishing the district or creating a new district. Council could update the district

by reconstituting and restructuring it to have the powers it needs, and the boundary accurately stated. He said the district and the agreement go hand and hand. If you update the agreement, the district needs to be updated also. They recommended that Council go through the process to reconstitute the Hartsville Fire Protection District to update everything as mentioned. This process was outlined in the statute. First, Council has to adopt a resolution calling for a public hearing on the question of reconstituting the district. The notice of public hearing has to be advertised once a week for three successive weeks after which Council can have the public hearing. There also will be three readings of an ordinance. Once the ordinance is adopted, the staff will publish a notice of the adoption of the ordinance for two successive weeks. At the end of those two successive weeks, there will be a 20-day waiting period, then everything will be done.

The attorneys also recommended that the staff start the process to reconstitute the district by early Fall so that the new taxing district would be in place before the tax notices go out. Mr. Zeigler suggested Council's consideration of the resolution tonight, publish the notice of public hearing, and first reading of the ordinance could be tonight by title only and the remaining two readings in August. Therefore, by September when the Auditor sends out tax notices, there would be a new reconstituted district in place.

Mr. Stewart asked whether Council wanted to begin the process to reconstitute the district tonight. The Clerk to Council had a copy of the resolution and the ordinance title if Council chose to amend the agenda to consider these two items. The first reading of the ordinance, by title only, would not be a final action, and adding the resolution which calls for a public hearing would not be a final action. It was Mr. Stewart's understanding that since neither of these would be a final action, Council could amend the agenda to add the resolution and first reading of the ordinance. It would take a three-fourths vote of Council to amend the agenda to begin the process. The second reading of the ordinance could be scheduled for August 8th and the third reading on August 15th (special meeting). This process would be completed just in time for the Fall tax bill. If postponed for 30 days, unless the Auditor holds the tax bills, there would be no way for this to make the tax bill this year. The Auditor's goal is to get the tax notice out in early September of this year.

MOTION made by Mr. Coker and seconded by Mr. Douglas to amend the agenda to bring forth Executive Session for discussion of negotiations incident to proposed contractual arrangements and the receipt of legal advice regarding Hartsville Fire contract.

Chairman Hudson read the title of Ordinance No. 22-11 for first reading. No action required.

Mr. Davis asked whether the funds from the state for the Coroner could be placed into a separate line item and ordinance.

Mr. Stewart explained that all the items were budget amendments. The funds would come from the state and pass through according to state law.

Mr. Davis confirmed that funds from the state were a one-time appropriation, and if the state does not send the funds, the Coroner would not be given any funds.

Mr. Stewart responded that for this reason, the funds were in the budget as a supplementary line item so that if the state does not send the funds again, the Coroner would not be funded. If there is another ordinance, there would be two ordinances trying to amend the budget separately. Currently, there is one budget ordinance amendment with all the amendments in it instead of two separate budget ordinances amending the budget simultaneously.

Mr. Davis asked how Council would know that the individuals received their funds from the state.

Mr. Stewart explained that the budget amendment would show a line item to pay the individuals those funds. He referred to the budget amendment on page 125 in the agenda package wherein the Coroner's budget has a line item for state salary supplement and state coroner's program supplement. Mr. Stewart also referred to page 128 in the agenda package wherein the Sheriff's budget has a line item for state salary supplement. He said these items were budgeted in separate line items where they would be paid from. If the money does not come next year, nothing would be in these line items.

Mr. Davis asked whether the county received these funds in the past.

Mr. Stewart clarified that not the new money. In the past, the Sheriff and Coroner each received \$1,500.

Mr. Davis asked whether the Sheriff and Coroner received their funds in the past.

Mr. Stewart said the county did not pass the funds along as a separate line item dating back to the 1990s and beyond. However, with the new money, he recommends that the funds be separated as a state supplementary line item.

Mr. Davis again questioned whether each elected official had received the funds from the state in the past.

Mr. Stewart responded that Mr. Davis was asking a legal question. Therefore, Council may need to go back into executive session for discussion. He added that the staff did this the way the county had always done it, but he was asking Council to do it slightly different by placing the funds in a separate line item to show that it's there.

Mr. Davis said it was his right to ask these questions. He wants to make sure that the funds come through the county since Council has to approve it.

Mr. Stewart reiterated that the county did not show these funds in a separate line item dating back to its inception. Now that the money has increased, he felt that this needed to change to the way it is now listed in the budget amendment.

Ordinance No. 22-12, An Ordinance To Amend The Darlington County Code Of Ordinances, Chapter 40 (Personnel), Article III. (Retiree Health Insurance Assistance Program). To Update The Definition Of Eligible Retirees And The Monthly Premium Contribution For The County's Retiree Health Insurance Assistance Program; And Establish The Effective Date Of This Ordinance - FIRST READING

Amend The Accommodations Tax Procedures To Include The Proposed Accommodations Tax Funding Distribution Plan

MOTION made by Mr. Davis and seconded by Mr. Flowers to approve the amendment to the Accommodations Tax Procedures to include the proposed Accommodations Tax funding distribution plan wherein recommendations for the total amount of available Accommodations Tax funds, excluding the 30% Special Funds, will be distributed as follows:

- 13% to projects/events in Lamar area.
- 13% to projects/events in Society Hill area.
- 37% to projects/events in Hartsville area.
- 37% to projects/events in Darlington area.

Mr. Coker asked whether Accommodations Tax funds appropriated to the county are not from actual hotels/motels in the county.

Mr. Stewart responded that Accommodations Tax funds that the county receives and gives out do not come directly from hotel accommodation earnings in Darlington County. These funds come from the statewide distribution of excess funds from other locations. Each municipality receives the accommodations taxes generated inside its municipality, and each municipality has its own process for allocating its accommodations tax funds. However, the county accommodations tax funds are not from hotel rooms in Hartsville, Darlington, Lamar, or Society Hill corporate limits. The funds the county receives are from elsewhere in the state divided amongst counties. Accommodations Tax generated in Hartsville is returned to the City of Hartsville.

Mr. Douglas clarified that the Committee would still make recommendations for Council's consideration.

Mr. Stewart confirmed that the Committee would submit its recommendations to Council for consideration. Council was just updating its guidance to use this percentage split.
